

- **Surveillance of a room with animals present (Pet-immune function)**
 - ◆ Triggering when movement is detected
 - ◆ Resets after 1mn. 30s (30s in fast mode).
 - ◆ Mounted 2.30m from the ground
 - ◆ Range: 12m x 12m
 - ◆ Range depends on the animal's weight and the thickness of its coat
 - ◆ Built-in protection against opening and wrenching off
 - ◆ Power supply: 1 x 3V lithium battery
 - ◆ Typical 4-year battery life
 - ◆ Low battery detection (1 week's operating time left)
 - ◆ Supervision every 9 minutes
